Spanish service now indexing CMAJ
Articles in *CMAJ*, which are already abstracted and indexed by MEDLINE/*Index Medicus* and more than 30 key English-language scientific databases, now have a much broader reach.
This happened after *CMAJ* was added to the list of journals tracked by one of the world's major indexing services for Spanish and Portuguese physicians and medical scientists.
Sociedad Iberoamericana de Información Científica (www.siicisalud.com), based in Buenos Aires, serves physicians throughout South America. It added *CMAJ* to its list earlier this year. — *CMAJ*
